

DR842

Densitometro per riflessione colore

Colour reflection densitometer

Dimensione reale
Actual size

FUNCTIONS

- Zeroing on the white paper.
- Auto Color select.
- Density and difference of density.
- Gray balance.
- Percent dot area.
- Automatic.
- Possibility to visualize 3 decimals for measurements in density.

SPECIFICATIONS

Measuring area diameter:	3,5 mm.
Spectral response:	equivalent to status E _(narrow band) or to status T _(wide band) .
Measuring range:	0-2,5 D _(density) , 0-100,0 _(percent dot area) .
Repeatability/Linearity:	± 0,010 D _(density) ± _(percent dot area) .
Interinstrument agreement:	± 0,020 D _(density) .
Display:	LCD, two lines of 8 characters
Warm up time:	none.
Operating temperature range:	5 °C - 40°C.
Battery:	rechargeable Ni-Cd.
Measurements per charge:	20.000.
Weight:	360 gr.
Dimensions:	125x67x48 mm.
